PROFESSIONAL EXPERIENCE

Dam Squad Sep 2025 – Present

React Native & Full Stack Developer

- Work directly with the CTO delivering custom software solutions for multiple clients.
- Lead development and maintenance of **Amparo Seguros'** digital ecosystem.
- Migrated the insurance-sales mobile application from **Expo SDK 52 to Expo SDK 55** in production.
- Led the backend platform migration from **Payload CMS v2 to Payload CMS v3**.
- Maintain and evolve a production React Native application used by insurance agents across multiple company branches.
- Develop and maintain websites, landing pages and digital solutions for Red SOS.

STACK React Native, Expo, Next.js, Payload CMS, TypeScript, PostgreSQL, Docker

Capsule Codes Sep 2025 – Present

Full Stack Developer

- Develop web and mobile applications for international clients.
- Contribute to **UR POV**, a React Native and Expo platform for business discovery and reviews in the South African market.
- Build SaaS solutions for project management, invoicing, time tracking and ticket management.
- Develop modern full-stack applications using Next.js, Supabase, PostgreSQL, Drizzle ORM and Zod.
- Work across frontend, backend and product development in distributed remote teams.

STACK React Native, Expo, Next.js, Supabase, PostgreSQL, Drizzle ORM, Zod, Docker

Helmcode Feb 2025 – Nov 2025

Full Stack Engineer

- Developed **Andulia**, an AI-powered cloud assistant enabling infrastructure management through natural-language interactions.
- Contributed to HelmCloud, a cloud platform designed for startups and SMBs.
- Worked on Coderun, a SaaS platform for deploying and managing containerized services.
- Built frontend applications, backend services and APIs for developer-focused products.
- Worked with Docker-based environments and modern cloud-native architectures.

STACK React, Next.js, FastAPI, Node.js, PostgreSQL, Redis, Docker

Potentiality Group

Sep 2022 – Jan 2025

Frontend / Mobile Developer

- Worked as a staff-augmentation consultant embedded within **Iúnigo** and **San Cristóbal Seguros** teams.
- Developed and maintained customer-facing mobile and web applications.
- Built insurance quoting systems and self-service platforms.
- Contributed to high-traffic, business-critical products used across Argentina and Uruguay.

STACK React, React Native, Next.js, TypeScript

Vippinn

Nov 2021 – Sep 2022

Full Stack Developer

- Developed the corporate website for Clínica Universitaria Reina Fabiola.
- Built a Salesforce integration layer for a Telefónica España project.
- Contributed to a tourism mobile application featuring Google Maps and Beacon technology.

STACK React, React Native, JavaScript, Salesforce

FEATURED PROJECTS

Invoice Maker · invoice.mgalvan.dev

Browser-based invoice generator built with Next.js, TypeScript and client-side PDF generation.

Estudialo AI

AI-powered educational platform for generating exams, summaries and learning materials.
